

Agency Servicing Portal

Last Modified on 04/30/2024 12:25 pm EDT

What is the Agency Servicing Portal?

What is the Agency Servicing Portal?

Agents may now access customer policies through the **Agency Servicing Portal**.

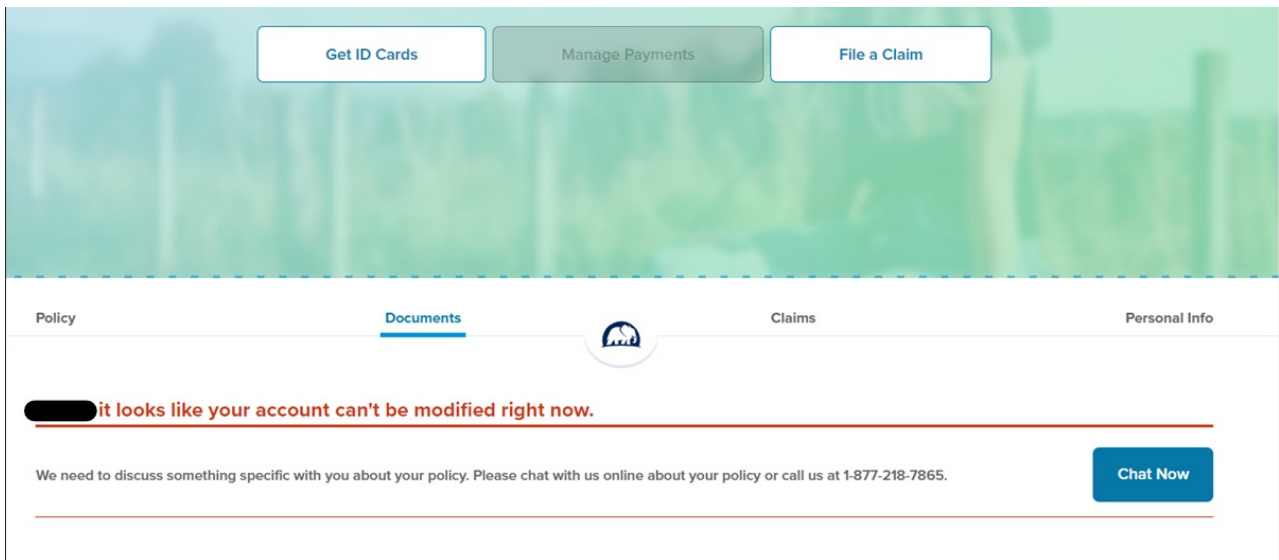

Agents can do the following on the Agency Servicing Portal:

- View and access policy documents
- View and access previous-term policy documents
- View and access renewal documents, renewal documents are loaded 28 days prior to renewal
- Add/remove/update lienholder information
- View billing
- Update mailing or garaging address
- Add drivers/permitted drivers
- Add/remove/change vehicles
- Add/remove/change coverage
- Replace a vehicle
- Add a vehicle and driver in one quote
- Make payments
- Reschedule payments
- Update payment information

Agents on the Agency Servicing Portal can do everything **EXCEPT:**

- View a cancelled policy (More information on canceled policies will be coming soon though!)
- Schedule Payments
- Remove Drivers--To remove a driver you will most likely have to exclude them with a Customer Care agent and have the policy holder e-sign the document and return it first. You could potentially be allowed to remove if you are able to provide proof of insurance elsewhere but only if Underwriting approves it
- Add more than one vehicle at a time
- File a Claim
- Cancel a Policy--You can only cancel a policy by calling in to our customer care department or chatting with a customer care agent
- Sign or access signed waivers
- Update NI or drivers names
- Update name, phone number and email address

If your customer has a foreign license or any other situation causing MVR not to run, you nor the customer will have the ability to make changes on the portal. You will get the following error:

How to Register Your Agent Account

How to Register your Agent Account

1. You will need your Company Code. If you do not have one then email agencytechsupport@elephant.com. Your Company Code is ONLY used to register for the Agency Servicing Portal.
2. Go [here](#), and click on "Activate Agent Account" which takes you here
3. Complete all fields and click "Continue"

Welcome to Elephant

Please provide the following information to register.

Your company code	<input type="text" value="Company Code"/>
Your email address	<input type="text" value="Agent ID"/>
Agent last name	<input type="text" value="Last Name"/>
Password you want to use to login	<input type="password" value="Password"/>
	<input type="password" value="Confirm Password"/>

Password must be at least 8 characters and include one lowercase letter, uppercase letter and digit.

Activate Agent Account

COMING SOON!! We will be rolling out **Multi-Factor Authentication (MFA)** over the next several months, so stay tuned!

What's New?

Soon, we will be implementing Multi-Factor Authentication (MFA) for our Elephant Agency Servicing Portal. MFA is an additional layer of security designed to safeguard both agent and customer data, ensuring unparalleled protection for your valuable information.

How Does it Work?

With MFA, you will experience an added security step during the login process. Periodically, when accessing your account, you'll be prompted to enter a unique code sent to you via email. This simple step will act as an extra security measure, making it even more challenging for unauthorized individuals to gain access to your account.

Rest Assured:

At Elephant, your privacy and data security are our top priorities. By implementing MFA, we are reinforcing our commitment to keeping your information safe and protected from potential threats.

Locked out?

Locked out?

If you are not able to log into the Agency Servicing Portal, start by resetting your password. If you are a Liberty Mutual agent, when it asks for your email, enter your N#. If you receive the email and do the reset and still get an error message, email agency support at agencytechsupport@elephant.com and say you are not able to log in to the portal. We will respond within 1 business day. We will reset your portal and then you will be able to re-register for the Agency Servicing Portal [here](#).

*Reminder as a Liberty Mutual agent you will always use your N# for all fields instead of email.

How to Make Policy Changes

How to Make Policy Changes

For coverage changes:

1. Once on the Portal, click on the "Policy" tab.
2. Make your desired changes.
3. Click on "View Quote"
4. Now you'll see all of your remaining payments for this policy term, policy coverages, vehicle coverages, driver assignments--all of which you can still edit.
5. Once you review everything you can click on "Change Policy" or "Discard" If your session times out or you leave without clicking either, the next time you log in you will be able to continue with the change.

See below for screenshots of all the screens.

If you make a policy change close to policy renewal, you will not be able to see the future payments for the renewal. You would need to call into customer care or chat with a customer care agent.

Change Policy

Payments

Payments

You asked and we HERD! You can now make payments and change payment methods on the Agency Servicing Portal for your clients! You no longer need to call in or chat to get payments done for your clients.

You can now make payments, update the payment method and reschedule payments. For rescheduling payments, it will only show if you are eligible to change the payment. Renewal payments are never allowed to be rescheduled, instead you will want to stop the renewal payment. This can only be done by calling into our Customer Care department.
